

LONESOME MAN
(The Good Samaritan)

1. When all the people have passed you by;
when they've all left you there to die,
it's hard to take it in.
When there is nothing but dust and dirt;
when the bones in your body hurt,
it's easy to give in.

Chorus:

Comes a lonesome man!
kneels and does the best he can;
binds up my wounds and brings me comfort.
there on the long road to Jericho,
just when hope is about to go,
there comes a lonesome man.

2. When all the rest of the world are fine
but you're stuck on the poverty line,
it's hard to take it in.
When all the rest have got homes enough
but you're there living kinda rough,
it's easy to give in.
3. When there is plenty to share around
but the seeds won't grow in your ground,
it's hard to take it in.
When there is plenty of water spare
but your land is so dry and bare,
it's easy to give in.
